National Tutoring Association Tutor Code of Ethics

- I will provide honest feedback in the form of positive praise and/or constructive suggestions to students I serve in a manner beneficial to their overall learning.
- I will demonstrate faith in each student's learning abilities understanding my primary goal is helping them discover and develop skills needed to reach their desired educational outcomes.
- I understand my relationship to each student I tutor is professional and not personal.
- I will respect and be sensitive to students' cultural background and personal value system, keeping in mind their personal dignity.
- I will keep information about all students I work with confidential.
- I will remain flexible to my approach to student learning, respectful of the various learning styles and preferences.
- I will share techniques for improving study skills with students; respecting their differing learning styles and preferences while exhibiting excellence in my approach to the content being tutored.
